KEY STEPS OF THE GENERAL PLAN AMENDMENT PROCESS

The [Envision San José 2040 General Plan](#) is the adopted blueprint and land use policy that directs physical development of the City of San José. Maps that outline designations in the General Plan and that are helpful to applicants include:

General Plan Land Use Map

www.sanjoseca.gov/GPdesignation

Planned Growth Areas Map:

www.sanjoseca.gov/DocumentCenter/View/7463

Annual Review and Amendments. Once a year, the Planning Commission and City Council hold hearings to consider proposals to amend the General Plan. As shown on the flow chart, several steps are required prior to the hearings. For amendment application due dates, view the Amendments and Annual Review webpage at www.envisionsj2040.org.

Environmental Evaluation. The California Environmental Quality Act (CEQA) requires that General Plan amendments undergo environmental review, and environmental certification is required in order for the City Council to consider an amendment request. Please submit your application well in advance of the hearing date so that the environmental review can be completed in time.

Evaluation Criteria. Criteria that City staff use to evaluate the appropriateness of a proposed amendment include:

- The proposal must be consistent with General Plan major strategies, goals, and policies. See the [General Plan's Table of Contents](#) to find these items.
- The proposal must be compatible with surrounding land uses.
- Staff will also consider the proposal's impact on City services, including police, fire, park, library, sewer and transportation services.
